BUILDING TOMORROW'S WORKFORCE

EMPLOYER GUIDE

Introduction to Kirklees College

At Kirklees College, our mission is all about creating opportunities and changing lives, and this is at the heart of everything we do.

As a uniquely vocational college, Kirklees College prides itself on preparing the workforce of tomorrow through an extensive range of apprenticeships, T Levels and work and industry placements. As an employer, you can partner with us to offer our students invaluable industry experience through one of these routes.

This guide will provide you with all the information you need to understand the college, our mission, and how we can work together to shape the next generation.

Meet The Team

The Business Development Team is divided by apprenticeships and work placement, with our Employer Engagement & Recruitment Advisors looking after all things apprenticeships, whilst our Employer Engagement & Placement Advisors focus on connecting students with our employer partners for work placement opportunities, including our T Level provision.

7

PIONEER HIGHER SKILLS CENTRE
Halifax Rd, Dewsbury, WF13 1BD

Huddersfield Centre

This £70 million modern centre is our biggest and offers world-class facilities for vocational learning in the heart of Kirklees.

Kirklees College, Manchester Road, Huddersfield HD1 3LD

Apprenticeships:

Business, Digital Development, Education and Early Years, Hair, Beauty and Barbering, Hospitality and Catering, Science, Sport and Fitness, and Teacher Education.

Scan to see our full offer

T Levels: Business, Digital, Education, Health.

Courses with Work Placement: Art and Design, Business, Digital, Education and Early Years, Hair, Beauty and Barbering, Health and Social Care, Hospitality and Catering, Media, Music, Science, Sport and Fitness, Travel and Tourism and Uniformed Protective Services.

Brunel Construction Centre

Recent figures estimate the total turnover of the industry at around £370 billion, according to a UK Government website. This highlights the importance of providing future construction workers with the best possible facilities throughout their training.

Our centre offers state-of-the-art workshops and study areas for a wide range of specialist trades, including bricklaying, electrical, plastering, plumbing and joinery. There are also dedicated spaces for design, management and health and safety.

Old Fieldhouse Lane, Leeds Road, Huddersfield HD2 1AG

Apprenticeships:

Joinery, Brickwork, Furniture Manufacturing, Groundworks, Plastering, Plumbing, Painting and decorating, Property Maintenance and Electrical.

T Levels: Electrical.

Courses with Work Placement: Joinery, Brickwork, Groundworks, Plastering and Electrical, Multi Skills, Painting and decorating, Plumbing.

Taylor Hill Animal Centre

This is a specialist eco-friendly centre housing a wide range of animals with an aviary, aquarium, small mammal house, reptile unit and grooming studio.

The college recently opened a brand-new Reptile House and Aquatics Centre. This specialist facility not only houses a range of species but also has learning spaces and the most up-to-date equipment for our students to use.

Students in this centre are studying for careers in animal care, agriculture, dog grooming, landscaping and much more.

Close Hill Lane, Taylor Hill, Huddersfield, HD4 6LE

T Levels: Animal Care & Management.

Courses with Work Placement: Animal Care, Dog Grooming and Agriculture.

Engineering Centre

At Kirklees College, we are proud to be innovators of engineering and this £7.5 million specialist Engineering Centre, with workshops for CNC, manufacturing, mechanics, fabrication and welding and motor vehicle.

Turnbridge Road, Huddersfield, HD1 6AG

Apprenticeships:

Engineering, Fabrication and Welding and Motor Vehicle.

T Levels: Manufacturing, Processing and Control

Courses with Work Placement: Engineering, Fabrication and Welding and Motor Vehicle.

The college is good at engaging with employers to encourage them to take on new apprentices. The Employer forums are very informative, and being able to network with other companies helps with wider community. Communication is good and I have a good relationship with staff at college. They support me when needed and are also very approachable.

Process Manufacturing Centre

£12m industry standard equipment invested from industry, including a processing plant with automated production line and chemistry lab.

Combined with expert tuition, this flagship centre provides the perfect platform to develop the practical skills required to work in the process manufacturing sector.

Turnbridge Road, Huddersfield, HD1 6AG

Apprenticeships:

Food and Drink Process Manufacturing and Supply Chain.

Springfield Sixth Form Centre

Springfield Sixth Form Centre offers courses in a range of subject areas that are all designed to help students reach the next stage of their career in a variety of exciting and evolving industries.

The Construction Skills Hub, also based at Springfield Sixth Form Centre, opened in 2024 and the centre now offers Electrical, Plumbing and Joinery courses, with more course areas and apprenticeships to be introduced in the coming years.

Springfield Sixth Form Centre, Bradford Road, Dewsbury WF13 2NP

T Levels: Early Years Educator, Early Years Practitioner, Teaching Assistant

Courses with Work Placement: Business, Digital Development, Education and Early Years, Construction and Health and Social Care.

Pioneer High Skills Centre

Pioneer Higher Skills Centre is a learning facility dedicated to Higher Skills and Higher Education to drive the improvement of education and increase the skills of local people.

The historic building was transformed into a state-of-the-art facility as part of a £14 million restoration and refurbishment project, finished in 2021. The centre combines the perfect mix of modern facilities, whilst maintaining many original heritage features, to provide an ideal study environment.

Pioneer Higher Skills Centre,

Halifax Road, Dewsbury, WF13 1BD

Courses with Work Placement:

Art and Design, Education and Early Years, Hair, Beauty and Barbering.

T Levels: Early Years Educator

SOCIAL IMPACT

New apprentices in 25/26

We work with

1000+

employers

19+

2376

Full-time students completed work / industry placement in 25/26

93.8%

of employers would recommend Kirklees College

81%

of these are local small/ medium businesses

98%

of our students feel the college is a welcoming place for people of all backgrounds

93%

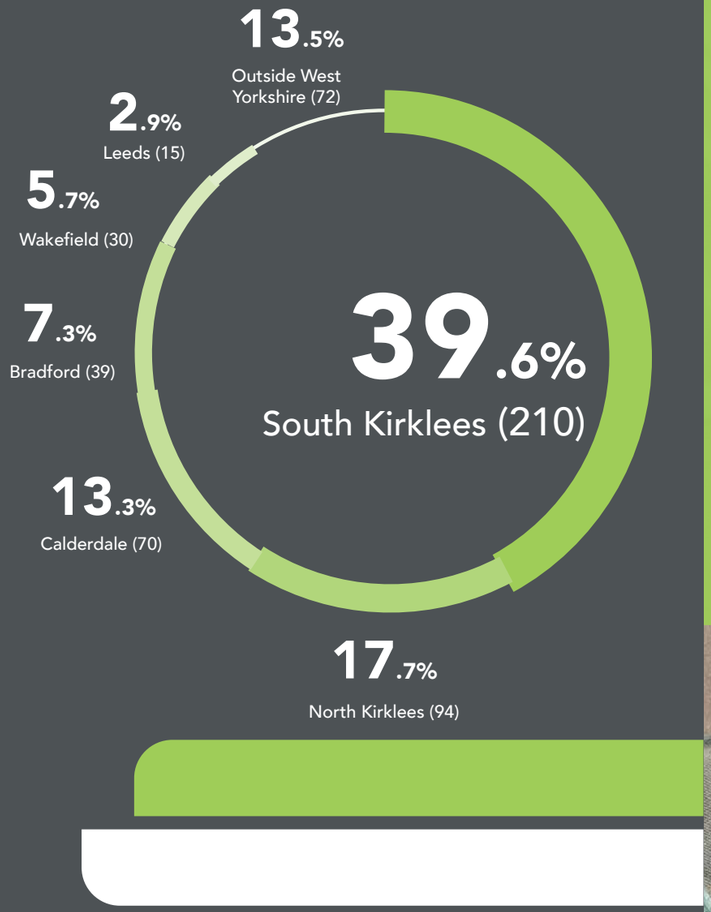

of our apprentices would recommend the college

97%

of our apprentices say college is a safe place to be

Kirklees College plays a vital role in supporting the social and economic wellbeing of our local communities. As an anchor institution in Huddersfield and Dewsbury, our work extends beyond education, contributing positively to employment, inclusion, health and community cohesion across Kirklees. These social impact statistics demonstrate how our work creates real, measurable benefits for students, employers and communities, helping to reduce inequalities and strengthen the local area. Together, this impact reflects our mission of Creating Opportunities, Changing Lives and our commitment to making a lasting difference in Kirklees.

Employer Events

> ***Kirklees College do an amazing job for young adults.***
> - Arrow Commercial Centre

At Kirklees College, we are passionate about building strong partnerships with employers across our region. By working together, we can help develop skilled, confident young people while creating valuable opportunities for businesses to engage with future talent.

We offer a range of events and activities throughout the year where employers can connect with students, share industry expertise, and raise the profile of their organisation.

Employer Boards

Our Employer Boards bring together industry professionals and curriculum teams to help shape the future of education and skills development. Employers have the opportunity to influence training programmes, ensure students develop industry-relevant skills, and strengthen links between education and employment.

Recruitment Fairs

Our recruitment fairs provide employers with the chance to meet enthusiastic students and potential future employees in one place. Whether promoting apprenticeships, placements or part-time roles, these events are an excellent way to engage directly with emerging talent.

> ***Absolutely fantastic presentations by the students sharing their experience.***
> - Henley Stone Specialists Ltd

Food & Drink Industry Awards Ceremony

Each year, we celebrate the achievements of our students and employer partners within the food and drink sector through a dedicated awards ceremony. We invite local employers to join us in recognising excellence, networking with industry peers, and supporting the next generation entering the sector.

Employer Thank You Dinner

Our annual Employer Thank You Dinner is an opportunity to celebrate the valuable support and collaboration of our employer partners. The evening includes student presentations and success stories, allowing employers to hear first-hand about the positive impact their involvement has had on learners' journeys and career aspirations.

Guest Speakers and Industry Talks

We warmly welcome employers into college to deliver guest talks, workshops, and industry insight sessions. Sharing real-world experiences helps inspire students, broaden their understanding of career pathways, and strengthen their employability skills.

Site Visits and Workplace Experiences

We are always keen to create opportunities for students to experience the workplace first-hand through site visits and industry tours. These experiences give students valuable insight into different sectors and help them better understand the skills and expectations of modern workplaces.

> ***All the students that presented were amazing and their words were very inspiring. I would like to thank each and every one of them and commend them for their courage in speaking.***
> - ALS Global

Our Annual Employer Thank You Dinner

February 2026

Back in February, National Apprenticeship Week gave us an opportunity to celebrate the contributions of our employer partners who are helping our apprentices have the best possible start in their careers.

As part of this, we held an Employer Thank You event at Accu Stadium which brought together organisations from different industries.

This presented an opportunity for Kirklees College students and apprentices to share their stories of how work and industry placement has helped them gain confidence and skills.

> ***"The evening was immaculately planned and presented so hats off to yourselves and everyone else who had a hand in organising it."***
>
> - Auden Funeral Supplies

Food and Drink Engineering Apprentice Awards

As part of National Apprenticeship Week 2026, Kirklees College hosted an awards ceremony to celebrate the work of Food and Drink Manufacturing apprentices and their employers.

The apprentices, who study at the college's specialist Process Manufacturing Centre in Huddersfield, are employed by some of the region's biggest Food and Drink employers, many of whom attended the awards. This included four event sponsors Hovis, Manrochem, Petal & Barley and Myton Food Group.

Awards presented included Best All-Rounder, Best Practical, Best Theory, Most Improved and Tutor Choice, with an apprentice from year one, two and three all being honoured in each category.

After a series of inspirational stories and deserved success for many apprentices, the night concluded with Sam Croft announced as 'Outstanding Learner'.

Kirklees College Apprenticeships

Offering an apprenticeship opportunity within your business is a great way to support and develop local talent whilst fulfilling the needs of your organisation. An apprenticeship is a three-way partnership between the employer, Kirklees College and the apprentice.

An apprentice is employed by the business, training and expanding new skills in the work environment. However, six hours per week of their learning must take place off-the-job, be relevant to the apprenticeship standard and be different to the apprentice's day-to-day tasks.

An apprenticeship can last between 8 and 48 months and is available to anyone from any background from 16 years of age. Whether you are looking to upskill existing staff or diversify and refresh your workplace with potential new talent, an apprenticeship is an excellent way to create a motivated, qualified workforce.

> ***The team I work with at the Engineering Centre, do the absolute up most to adapt to the needs of our business. This has been a sticking point for us in the past with other providers and working with Gary and Paul is like a breath of fresh air. It is clear that they have true passion and care for our learners. I can trust that they always do the right thing by our apprentices.***

From 1st October 2026 an additional payment of £2,000 is available to SMEs hiring an apprentice who is 16 to 24 and a new employee to the business (joined the business within the previous 3 months). This support is designed to help businesses grow their workforce while creating more opportunities for young people to enter skilled careers. For employers, it's a great opportunity to invest in future talent while strengthening your business. For young people, it opens more doors to valuable career pathways and hands-on experience.

*From October 2026

Employer Apprenticeship Information

Your Responsibilities:

You are responsible for ensuring your apprentice:

- Works with experienced staff
- Provide relevant occupational support
- Learns job-specific skills
- Gets time off during their working week for apprenticeship training - this should equate to six hours a week on average and be logged and evidenced by the apprentice

Note: if an apprentice needs to undertake Functional Skills English and/or maths, this does not count towards the required time off for study, so extra time must be allocated by the employer.

> ***"The experience so far has been great. The apprentice we have employed is great and we thank Kirklees College for all the support and help."***
>
> - Almo Financials

Digital Account Service (DAS) Account:

All employers need to create a DAS account. You'll use this service to:

- Advertise apprenticeship vacancies
- Accept employer agreements with the Department for Education (DfE)
- Set permissions for the college as training provider to do some things on your behalf (such as advertising apprenticeships and adding apprentice details)
- Once your apprentice has been signed up with us, you will receive an automated email asking you to log back into your DAS account, check the apprentice details and approve them. This is the final step and ensures funding and incentive payments can be received in a timely manner.

Funding:

Companies with a pay bill of over £3m automatically pay into the apprenticeship levy. The levy is paid at a rate of 0.5% of the employers annual pay bill and expires after 12 months if left unspent. This money is to be used to fund the cost of an apprenticeship training.

For companies with a pay of under £3m, the Government covers 100% of the training costs for any apprentices aged 16-24, and 95% for those aged 24+, with the employer contributing just 5%.

The training cost of each apprenticeship standard is different, so please check this with us.

Free Recruitment Service

We offer a free recruitment service to help you maximise your levy/funding.

Did you know?

As of April 2026, the national minimum wage for an apprentice is £8 an hour.

Scan here to find out more about the Growth and Skills Levy:

> ***Our apprentice needs support at college and he has received it from day one with them. All staff are fully aware of his additional needs and fulfil those needs each time he is at college. They have helped hugely in him finally getting a pass in Maths and English, along with his self-confidence in all aspects of his training.***

We currently run apprenticeships in the following subject areas:

- Business and Enterprise
- Digital
- Construction
- Education and Early Years
- Engineering
- Hair and Beauty
- Hospitality and Catering
- Motor Vehicle
- Process Manufacturing
- Science
- Sport and Fitness

> ***"Eye opening and inspiring to listen to how these students have grown in ability and confidence."***
>
> - M I Autos Huddersfield Ltd

Work Placements

At Kirklees College, we are dedicated to providing our students with the best educational experience available. In addition to supporting and challenging our students to develop their skills and knowledge in the classroom, we aim to give them the opportunity to put these skills into practice and gain valuable experience in the workplace by offering students a minimum of 30 hours' work placement.

Benefits of supporting a work placement

- Employers gain access to new talent to support recruitment needs and future workforce planning
- Mentoring a young person can motivate your employees and develop their own knowledge and skills
- It provides an opportunity to gain new ideas and ways of thinking from the next generation of employees, customers, and consumers
- Supporting young people sends a positive message about the values of the organisation and their commitment to developing their local community

Types of Work Placement

External work placements are just one of the ways that we offer our students work experience.

Internal Work Placement

These are placements completed within college, supported by staff from various departments.

Benefits to students:

- More accessible
- Familiar environment
- Builds confidence before external placements
- Still develops employability skills
- Good option if external placements are limited

Live Brief

These are real projects set by external employers for students to complete.

Benefits to students:

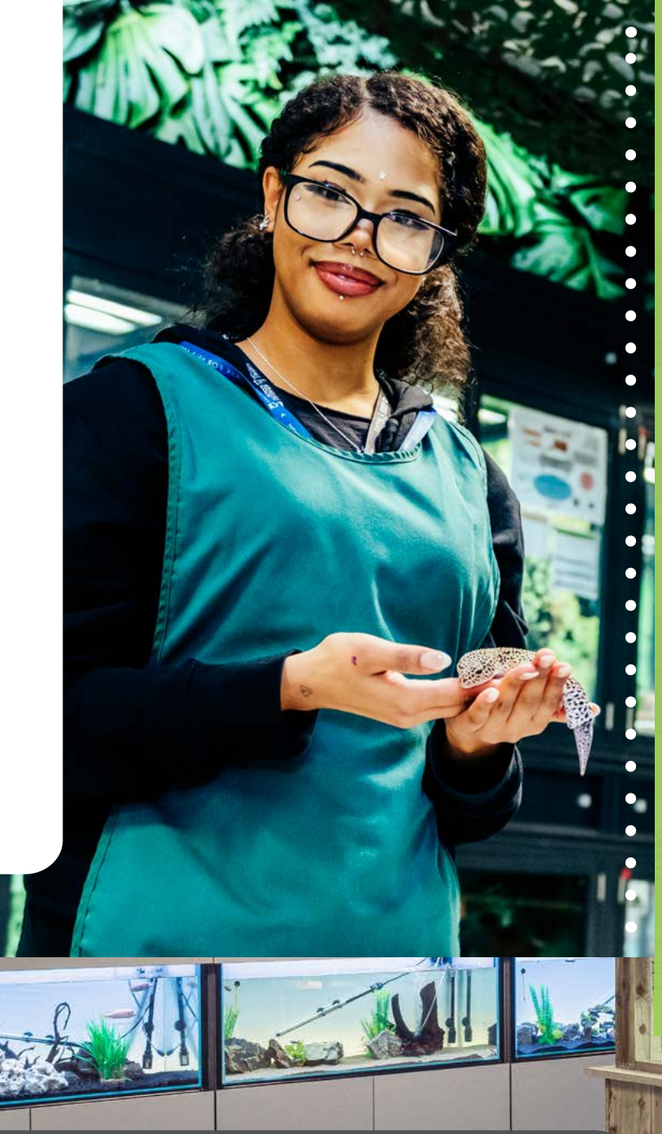

- Work on real industry problems
- Builds a strong portfolio
- Experience of meeting client requirements and deadlines
- Feedback from professionals
- Helps bridge education and employment

Virtual

Students can complete these remotely with an employer or external platform.

Benefits to students:

- Can be done from anywhere
- Flexible
- Develops digital and remote-working skills
- Access to employers you couldn't visit in person
- Often shorter and easier to organise

T LEVELS

T Levels - A Talent Pipeline for Industry

What are T Levels?

T Levels are two-year technical qualifications for 16–19-year-olds, equivalent to three A Levels. They combine classroom learning with practical industry experience, helping students develop the knowledge, skills and behaviours needed for their chosen career.

A key part of every T Level is an industry placement. Students complete a minimum of 315 hours (45 days) with an employer, giving them the opportunity to apply their learning in a real workplace, develop practical skills and gain valuable experience.

Industry placements

High-quality industry placements are a mandatory element of T Level programmes. During these placements, students will spend a minimum of 315 hours with an external employer, applying their academic learning, developing technical skills, and becoming more employable.

Benefits to employers

T Level industry placements give you a chance to look at the new talent coming into your industry. They can help you by opening up the talent pool for future recruitment, improve your organisation's productivity and bring new ideas to the table.

We currently run T Levels in the following areas:

- Animal Care
- Business
- Digital
- Construction
- Education and Early Years
- Engineering
- Health and Social Care

Scan for more information on T Level courses at Kirklees College

Benefits to Employers

How can a T Level Industry placement work for you?

Build your talent pipeline: Discover future apprentices and employees

Fresh perspectives: Students bring new ideas and industry-specific knowledge

Support your team: Offer mentorship opportunities to develop your staff

Invest in the future: Demonstrate your commitment to supporting the local community

No extra cost: Placements are part of the students' course requirements

Make a bigger impact with corporate social responsibility:

Support the next generation: Provide young people with life-changing opportunities to grow and thrive

Strengthen your local community: Contribute to local economic development by nurturing talent

Be part of the solution: Help address skills gaps skills gaps in your industry and inspire confidence in future generations

It's not just a placement, it's a partnership. With your support, we can develop a workforce that's skilled, ambitious and ready to contribute.

Work/Industry placement FAQ's

What is expected from a work/industry placement? Placements should be useful to your business and seen by the student as 'real work'. Employers need to ensure there is enough work to keep the student occupied, with varied tasks that provide a range of experiences. A mentor should be available to guide the student, advising on tasks and offering support throughout the placement.

How long do placements last?

- Industry Placements: A minimum of 315 hours, typically over a 6-month period.
- Work Placements: Duration varies depending on course requirements, but typically a minimum of 30 hours. The length will be agreed between the employer, the student, and the college.

When can students attend a placement?

- Industry Placements: Typically involve 1-2 days per week and/or block placements, depending on the student's timetable. This will be agreed upon in advance.
- Work Placements: Can be weekly (1-2 days per week) or block placements (a full week or more). The specific format will be agreed between all parties involved.

Do I have to complete additional Health and Safety checks?

Employers are responsible for the health and safety of young people on both industry and work placements, as they are treated as employees during their time with you. This includes providing a safe working environment, adequate supervision, and an appropriate induction.

Kirklees College will carry out Health and Safety compliance checks to ensure safety. If you already employ 16 or 17-year-olds, no additional health and safety checks are typically required, but Kirklees College may still conduct compliance checks.

Scan the QR code for more information

Do I need additional Liability Insurance?

Existing employers' liability insurance will typically cover both industry and work placements, provided the insurer is a member of the Association of British Insurers or Lloyd's. You may need to inform your insurer if you are hosting a student on placement for more than 2 weeks.

Do I have to pay them?

- **Industry Placements:** There is no legal requirement or expectation that students will be paid as these placements are part of their course. However, employers can choose to offer payment.
- **Work Placements:** Students working as part of a further or higher education course do not qualify for the minimum wage if the placement is part of their course or study programme and lasts no more than one year.

Do I need to have a Disclosure and Barring (DBS) Check?

Employers are not required to carry out an enhanced Disclosure & Barring Service (DBS) check on staff supervising students during either industry or work placements, unless specified by the nature of the role. If a DBS check is required for the student, Kirklees College can arrange this.

What support will I get?

You will be allocated a Placement Officer (Industry or Work Placement) to liaise with. They will answer any questions, agree on the specific details of the placement, and provide ongoing support throughout its duration. If a student has additional support needs in college, this can continue in the workplace to ensure they get the most out of their placement. Your Placement Officer will also be available to discuss any concerns and identify what support is available to help overcome barriers.

What do I do if a student is absent?

Students are instructed to inform their placement employer immediately if they are likely to be absent. If a student does not arrive, is late without a satisfactory explanation, or you have any concerns about their attendance, please contact us right away.

Do I need to complete any administration?

Your Placement Officer will complete a Health and Safety checklist and any other required documentation before the student starts their placement with you. During the placement, reviews will be conducted to assess the student's progress, and employer input will be requested. These reviews are recorded online, so there is no additional administration required. At the end of the placement, you will be asked to complete an evaluation or review (Industry Placement Evaluation or Work Placement Review) to provide feedback on the student's performance and highlight any areas for development.

We are keen to strengthen our partnerships with employers and create meaningful opportunities for businesses, students and the wider workforce. Whether you already work with us or are interested in getting involved for the first time, we'd love to hear from you.

Employer Survey

HELP SHAPE THE FUTURE WORKFORCE

Scan to take part in our Employer Survey

Your industry. Your expertise. Your voice.

Whether you already work with us or are new to Kirklees College, we want to hear from you. Tell us about your experiences, the skills your industry needs, how you'd like to get involved, and how we can support your business and workforce.

At Kirklees College, we want to make sure our students are developing the skills, knowledge and behaviours that employers really need — now and in the future.

Your insight can help shape our curriculum, employer opportunities, and the ways we work with businesses.

Your voice can make a difference.

Workforce Solutions for Employers

Practical support to help you recruit, train and develop your workforce.

We work with employers to provide straightforward, flexible workforce solutions. Whether you're looking to fill vacancies, upskill your team or address specific training needs, we can support you with programmes that are designed around your business.

Recruitment Support

We work with you to fill your vacancies through:

Targeted Employment Programmes (TEPs)

Pre-employment training tailored to your organisation

Candidates are prepared before they reach you, with training tailored to your roles so they have the skills and understanding needed from day one.

Bespoke Training

We can deliver bespoke training tailored to your organisation's needs, whether that's enhancing current skills, ensuring compliance with industry standards or addressing new challenges. Training is delivered in a way that suits your business, either on-site, online or through a blended approach, with minimal disruption to your day-to-day operations.

Funding Available

We can often help you access funding to support the cost of training, making it easier to invest in your workforce. In some cases, there may be funding available to support the costs of employing new staff, particularly where opportunities are created to help people into work. We'll work with you to explore the options available and keep the process as simple and straightforward as possible.

Upskilling Your Team

We offer a wide range of training to strengthen capability across your organisation and support staff development, including:

- Functional Skills in maths, English and digital
- Qualifications in English for Speakers of Other Languages (ESOL)
- Management & leadership qualifications
- Continuous Professional Development (CPD) and short courses
- A wide range of qualifications from Entry Level through to Level 3

Host business and networking events at Kirklees College

Our KC Conferencing Suite boasts magnificent views across the Huddersfield landscape and the Huddersfield Canal. These rooms are available for hire at Kirklees College, Huddersfield Centre in West Yorkshire.

Our Huddersfield Centre is situated in an ideal location, offering easy access to the M62 and being close to Huddersfield's bus and rail stations.

Our state-of-the-art facility is perfect for corporate events, private parties, and business meetings. Whether you are looking for a small meeting room or a large 100-seat conference suite, each space caters to your needs.

Landings 72

Whatever the occasion, our students are committed to giving you the best restaurant experience possible. We deliver a professional, friendly environment providing freshly prepared food with a fully licensed bar at competitive prices.

We offer a range of exciting and modern menus including vegetarian choices. Special events are planned throughout the year. Landings 72 restaurant provides our catering students with the opportunity to gain real work experience for their future careers and jobs in the hospitality industry.

Our students value the experience of preparing and serving food for paying customers. They are supported in their training by a professional team. By visiting our restaurant, you provide our learners with invaluable experience and will receive high quality food and service, for a fraction of the usual cost.
